V. Requests for Special Training

OFO, Middle East Division, has expressed an interest in having the Human Resources Program instituted there.

It is planned to tie-in closely with all Placement Officers in the future development of the Human Resources Program. There is certainly plenty of room for constructive cooperation between Training and Personnel in this program,- in fact, I had assumed that Training would be working closely with Personnel in all matters pertaining to supervisory training. As we move along with this program, I am sure that functional cooperation between Training and Personnel will become quite evident.

I shall be away from the office from 7 p.m., 25 August, until 8 a.m., 3 September.
